

# Kids Computers **ON WHEELS**

## DONDERDAG/THURSDAY

Ons stop met 'n mobiele eenheid by die skool.	We stop with a mobile unit at the school
U kind word gestimuleer in kritieke leerareas en leer ook die rekenaar ken.	Your child is stimulated in critical learning areas and become computer literate at the same time
Ons maak gebruik van opvoedkundige programme wat vaardigheid gebaseerd is.	We make use skills based educational software.
Elke kind werk op sy/haar eie rekenaar en sitplekke is beperk.	One child per computer and the seats are limited
U kind kan op enige datum van die jaar begin. Kies die begin datum op die tabel (sien keersy) en kyk wat is die eerste betaling. Daarna R90.00 per maand.	Your child can start any day of the year. - Choose the starting date (see overleaf) and get the first payment. Thereafter R90.00 per month.
Voorbeeld : Die kind begin op les 25, Donderdag 19 Aug. Elke les kos R24.75 en daar is 16 lesse oor. Totaal uitstaande vir die jaar is $R24.75 \times 16 = R396.00$ . Daar is $3 \times R90.00$ paaiemente oor en dit is R270.00. Dus die eerste betaling is $R 396.00 - R 270.00 = R 126.00$ .	Example : The child starts on lesson 25, Thursday, 19 Aug. Each lesson costs R24.75 and there are 16 lessons left. Total outstanding for year is $R24.75 \times 16 = R396.00$ . There are $3 \times R90.00$ payments left, this is equal to R270.00. Thus the first payment is $R396.00 - R270.00 = 126.00$
GEEN REGISTRASIE OF EKSTRA ADMINISTASIE FOUIE BETAALBAAR. U BETAAL SLEGS VIR DIE AANTAL LESSE WAT VIR DIE JAAR OORBLY. REKENAARKLASSE VAL SAAM MET SKOOLKALENDER.	NO REGISTRATION OR EXTRA ADMINISTRATION FEES PAYABLE. YOU PAY FOR THE REMAINING LESSONS LEFT FOR THE YEAR. COMPUTER LESSONS COINCIDE WITH THE SCHOOL CALENDER
Skakel asb vir Elmarie by 012 542 1551 indien enige navrae.	Please phone Elmarie at 012 542 1551 for any enquiries.
